

## President's Corner

Perianesthesia Nurse Awareness Week is almost here. This is a time to celebrate over thirty years of our unique specialty!

Each one of us brings our own unique talents and gifts to the Perianesthesia nursing care arena. We care for our patients, but do we care and celebrate each other?

I invite each member to acknowledge and appreciate your colleagues. Tell them how glad you are that they chose nursing and especially our specialty! Encourage and lift one another up through a sharing of knowledge, networking with others through our GAPAN organization. Don't forget to spread the joy of PANAW and don't forget to have a little fun too!
